(RC, Rapid Communication)

SUBJECT INDEX

Acidosis
The effect of acidosis on β-adrenergic receptors in ferret cardiac muscle. **78**, 95, 1993
Effects of acute acid loading on parathyroid hormone secretion and on urinary calcium and cAMP excretion in the growing lamb. **78**, 157, 1993

Adenosine
The role of adenosine in hypoxic pulmonary vasoconstriction in the anaesthetized rat. **78**, 541, 1993

β-Adrenoceptor
The effect of acidosis on β-adrenergic receptors in ferret cardiac muscle. **78**, 95, 1993

Adrenoceptor
Sympathetic innervation and β-adrenoceptor profile of blood vessels in the posterior region of the rabbit knee joint. **78**, 625, 1993

Afferent nerve
Carbon dioxide-sensitive superior laryngeal nerve afferents in the anaesthetized cat. **78**, 787, 1993

Ageing
Evidence for an age-dependent decrease in the immunoreactive prolactin-containing terminals of the median eminence of male rats. **78**, 851, 1993

Airway vasculature
The airway vasculature. **78**, 433, 1993

Aldose reductase
Polyol pathway-related skeletal muscle contractile and morphological abnormalities in diabetic rats. **78**, 139, 1993

***p*-Aminophenylalanine[6] angiotensin II**
The effect of the putative AT_2 agonist, *p*-aminophenylalanine[6] angiotensin II, on thirst and sodium appetite in rats. **78**, 767, 1993

Amylin
Amylin inhibits bone resorption by a direct effect on the motility of rat osteoclasts. **78**, 183, 1993

Aorta
Mechanism of pregnancy-induced attenuation of contraction to phenylephrine in rat aorta. **78**, 403, 1993

Auditory space map
The Wellcome Prize Lecture. A map of auditory space in the mammalian brain: neural computation and development. **78**, 559, 1993

Blood–brain barrier
The blood–brain barrier. **78**, 453, 1993

Blood flow
Some aspects of the use of laser Doppler flow meters for recording tissue blood flow. **78**, 1, 1993
Localized neural control of blood flow in the posterior region of the knee joint in anaesthetized rabbits. **78**, 105, 1993
Short-term oscillations of aortic core temperature and thermogenic organ blood flow in the rat. **78**, 243, 1993
Parathyroid hormone-related protein and mammary blood flow in the sheep. **78**, 499, 1993
Nitric oxide modulates sympathetic vasoconstriction and basal blood flow in normal and acutely inflamed rabbit knee joints. **78**, 615, 1993
Sympathetic innervation and β-adrenoceptor profile of blood vessels in the posterior region of the rabbit knee joint. **78**, 625, 1993

Blood pressure
Heart rate and blood pressure variability in subjects exposed to simulated increases in gravity. **78**, 825, 1993

Bombesin
Bombesin and gastrin-releasing peptide stimulate electrogenic ion transport in cultured human endometrial epithelial cell layers. **78**, 715, 1993

Bone
Amylin inhibits bone resorption by a direct effect on the motility of rat osteoclasts. **78**, 183, 1993
Osteoclast function and its control. **78**, 721, 1993

Book reviews and notices
Biomechanics: Structures and Systems. A Practical Approach edited by A.A. Biewener. **78**, 113, 1993
Chance and Design: Reminiscences of Science in Peace and War by Alan Hodgkin. **78**, 113, 1993
Functional Anatomy of Neuroendocrine Hypothalamus, Ciba Foundation Symposium 168 edited by Derek J. Chadwick and Joan Marsh. **78**, 114, 1993
Brain Organization and Memory: Cells, Systems and Circuits edited by J.L. McGaugh, N.M. Weinberger and G. Lynch. **78**, 259, 1993
Brain Biochemistry and Brain Disorders by Philip G. Strange. **78**, 259, 1993
The Biology of Nitric Oxide: I. Physiological and Clinical Aspects edited by S. Moncada, M.A. Marletta, J.B. Hibbs Jr and E.A. Higgs. **78**, 260, 1993
Phylogenetic Models in Functional Coupling of the CNS and the Cardiovascular System, vol. 11 in *Comparative Physiology* edited by Robert B. Hill and Kiyoaki Kuwasawa. **78**, 261, 1993
Muscle Contraction and Cell Motility: Molecular and Cellular Aspects vol. 12 in *Advances in Comparative and Environmental Physiology* edited by Haruo Sugi. **78**, 261, 1993
Muscles, Masses and Motion – The Physiology of Normality, Hypotonicity, Spasticity and Rigidity by E. Geoffrey Walsh. **78**, 429, 1993
Acoustic Systems in Biology by N.H. Fletcher. **78**, 430, 1993
Muscular Contraction edited by Robert M. Simmons. **78**, 555, 1993
Comparative Aspects of Mechanoreceptor Systems, vol. 10 in *Advances in Comparative and Environmental Biology* edited by F. Ito. **78**, 556, 1993
Interactions Among Cell Signalling Systems, Ciba Foundation Symposium 164. **78**, 556, 1993
The Interval–Force Relationship of the Heart edited by M.I.M. Noble and W.A. Seed. **78**, 557, 1993

Handbook of Physiology, section 8, *Renal Physiology* vols I and II edited by Erich E. Windhager. **78**, 557, 1993

Bronchial vasculature
The airway vasculature. **78**, 433, 1993

Brown adipose tissue
Short-term oscillations of aortic core temperature and thermogenic organ blood flow in the rat. **78**, 243, 1993

Brush-border membrane
Transport of tricarballylate by intestinal brush-border membrane vesicles from steers. **78**, 473, 1993

Caffeine
The actions of caffeine and 2,3-butanedione monoxime on calcium transients in human vascular smooth muscle. **78**, 255, 1993

Calcium
Effects of D-glucose, L-glucose and D-mannitol on renal calcium handling and general renal function in the rat. **78**, 165, 1993
Renal micropuncture study of the effects of D-glucose on tubular calcium handling in the anaesthetized rat. **78**, 175, 1993
The actions of caffeine and 2,3-butanedione monoxime on calcium transients in human vascular smooth muscle. **78**, 255, 1993
Osteoclast function and its control. **78**, 721, 1993

Calcium overload
The role of the sodium pump and sodium–calcium exchange in recovery from calcium overload in guinea-pig ventricular myocytes. **78**, 545, 1993

Calcium paradox
Calcium paradox in newborn and adult guinea-pig hearts: changes in intracellular taurine and the effects of extracellular magnesium. **78**, 503, 1993

Calcium regulation
Effects of acute acid loading on parathyroid hormone secretion and on urinary calcium and cAMP excretion in the growing lamb. **78**, 157, 1993

Calcium sensitivity
Evidence for decrease in myofilament responsiveness to Ca^{2+} during hypoxia in spontaneously active vascular smooth muscle in rats. **78**, 395, 1993

Carbon dioxide
Carbon dioxide-sensitive superior laryngeal nerve afferents in the anaesthetized cat. **78**, 787, 1993

Cardiac muscle
The effect of acidosis on β-adrenergic receptors in ferret cardiac muscle. **78**, 95, 1993

Cardiac myocyte
The effects of increasing cell length on auxotonic contractions; membrane potential and intracellular calcium transients in single guinea-pig ventricular myocytes. **78**, 65, 1993
Stretch-activation of rat cardiac myocytes. **78**, 411, 1993

Cardiovascular regulation
Nitric oxide and cardiovascular control. **78**, 303, 1993

Cell proliferation
Insulin and intestinal epithelial cell proliferation. **78**, 697, 1993

Cerebral cortex
Sound stimulation increases the cerebral glucose:oxygen quotient in the fetal sheep. **78**, 707, 1993

Chemoreceptor
Hypothalamic-evoked effects in cat nucleus tractus solitarius facilitating chemoreceptor reflexes. **78**, 425, 1993

Chloride
Renal epithelial Cl^- secretion. **78**, 117, 1993

Contraction
Motor units within the normal rat medial gastrocnemius. **78**, 371, 1993

Core temperature
Short-term oscillations of aortic core temperature and thermogenic organ blood flow in the rat. **78**, 243, 1993

Cortisol
Intestinal transport of sodium, glucose and immunoglobulin in neonatal pigs. Effect of glucocorticoids. **78**, 485, 1993

Co-transport
Volume-sensitive KCl co-transport and taurine fluxes in horse red blood cells. **78**, 685, 1993

Cough
Activity of inspiratory neurones of the ambiguus complex during cough in the spontaneously breathing decerebrate cat. **78**, 835, 1993

Crypt secretion
Enterocytes on rat jejunal villi but not in the crypts possess m3 mRNA for the M_3 muscarinic receptor localized by *in situ* hybridization. **78**, 109, 1993

Diabetes
Polyol pathway-related skeletal muscle contractile and morphological abnormalities in diabetic rats. **78**, 139, 1993

Dihydropyridine
Changes in voltage-operated calcium channels modify ethanol withdrawal hyperexcitability in mouse hippocampal slices. **78**, 347, 1993

Dorsal root reflex
Spread of the dorsal root reflex in an isolated preparation of hamster spinal cord. **78**, 799, 1993
Correlation between spontaneous bursts of activity recorded from the dorsal roots in an isolated hamster spinal cord preparation. **78**, 811, 1993

Electrophysiology
Neurotransmitter release mechanisms at the sympathetic neuroeffector junction. **78**, 591, 1993

Endometrium
Bombesin and gastrin-releasing peptide stimulate electrogenic ion transport in cultured human endometrial epithelial cell layers. **78**, 715, 1993

Endothelium
Mechanism of pregnancy-induced attenuation of contraction to phenylephrine in rat aorta. **78**, 403, 1993
The blood–brain barrier. **78**, 453, 1993

Enterocyte
Acute and chronic effects of pancreatic glucagon on sugar transport across the brush-border and basolateral membranes of rat jejunal enterocytes. **78**, 197, 1993
Administration of 3,5,3′-triiodothyronine induces a

rapid increase in enterocyte lactase–phlorizin hydrolase activity of young pigs on a low energy intake. **78**, 337, 1993

Epithelium
Na^+–H^+ exchanger in isolated epithelial tracheal cells from sheep. Involvement in tracheal proton secretion. **78**, 383, 1993

Ethanol
Changes in voltage-operated calcium channels modify ethanol withdrawal hyperexcitability in mouse hippocampal slices. **78**, 347, 1993

Exercise
Potassium loss from skeletal muscle during exercise in man: a radioisotope study. **78**, 639, 1993
Heat stress increases ammonia accumulation during exercise in humans. **78**, 847, 1993

Fat
Degree of breast emptying explains changes in the fat content, but not fatty acid composition, of human milk. **78**, 741, 1993

Fatigue
Motor units within the normal rat medial gastrocnemius. **78**, 371, 1993

Fetus
Sound stimulation increases the cerebral glucose:oxygen quotient in the fetal sheep. **78**, 707, 1993

Fusimotor neurone
The use of midbrain stimulation to identify the discharges of static and dynamic fusimotor neurones during reflex jaw movements in the anaesthetized cat. **78**, 15, 1993

G cell
Control of tissue progastrin concentrations in the rat. **78**, 327, 1993

Gastric secretion
Control of tissue progastrin concentrations in the rat. **78**, 327, 1993

Gastrin-releasing peptide
Bombesin and gastrin-releasing peptide stimulate electrogenic ion transport in cultured human endometrial epithelial cell layers. **78**, 715, 1993

Glucagon
Acute and chronic effects of pancreatic glucagon on sugar transport across the brush-border and basolateral membranes of rat jejunal enterocytes. **78**, 197, 1993

Glucose transport
Effects of D-glucose, L-glucose and D-mannitol on renal calcium handling and general renal function in the rat. **78**, 165, 1993
Renal micropuncture study of the effects of D-glucose on tubular calcium handling in the anaesthetized rat. **78**, 175, 1993

Gravity
Heart rate and blood pressure variability in subjects exposed to simulated increases in gravity. **78**, 825, 1993

H reflex
The effect of age and voluntary contraction on presynaptic inhibition of soleus muscle Ia afferent terminals in man. **78**, 235, 1993

Hand
G.L. Brown Prize Lecture. Cortical control of the primate hand. **78**, 263, 1993

Heart
Cardiac sympathetic nerve stimulation enhances cardiovascular performance during hyperkalaemia in the anaesthetized pig. **78**, 549, 1993

Hippocampus
Changes in voltage-operated calcium channels modify ethanol withdrawal hyperexcitability in mouse hippocampal slices. **78**, 347, 1993

Horse
Volume-sensitive KCl co-transport and taurine fluxes in horse red blood cells. **78**, 685, 1993

Human myometrium
Measurements of intracellular Ca^{2+} in cultured human myometrial smooth muscle cells bathed in low Na^+ solutions. **78**, 711, 1993

Hyperthermia
Heat stress increases ammonia accumulation during exercise in humans. **78**, 847, 1993

Hypoxia
Evidence for decrease in myofilament responsiveness to Ca^{2+} during hypoxia in spontaneously active vascular smooth muscle in rats. **78**, 395, 1993
The role of adenosine in hypoxic pulmonary vasoconstriction in the anaesthetized rat. **78**, 541, 1993
Acute systemic hypoxia and the surface ultrastructure and morphological characteristics of rat leucocytes. **78**, 839, 1993

Inositol 1,4,5-trisphosphate
The neuropeptide Phe-Met-Arg-Phe-NH_2 (FMRFamide) increases levels of inositol 1,4,5-trisphosphate in the tentacle retractor muscle of *Helix aspersa*. **78**, 757, 1993

Insulin
Insulin and intestinal epithelial cell proliferation. **78**, 697, 1993

Intestinal absorption
Transport of tricarballylate by intestinal brush-border membrane vesicles from steers. **78**, 473, 1993
Intestinal transport of sodium, glucose and immunoglobulin in neonatal pigs. Effect of glucocorticoids. **78**, 485, 1993

Intestinal epithelium
Insulin and intestinal epithelial cell proliferation. **78**, 697, 1993

Intracellular Ca^{2+}
Measurements of intracellular Ca^{2+} in cultured human myometrial smooth muscle cells bathed in low Na^+ solutions. **78**, 711, 1993

Intracellular calcium
The effects of increasing cell length on auxotonic contractions; membrane potential and intracellular calcium transients in single guinea-pig ventricular myocytes. **78**, 65, 1993

Intracellular magnesium
The regulation of intracellular Mg^{2+} in guinea-pig heart, studied with Mg^{2+}-selective microelectrodes and fluorochromes. **78**, 221, 1993

Intracellular messenger
Structural and functional characterization of striated ducts isolated from the rabbit mandibular salivary gland. **78**, 49, 1993
Ion channel
Stretch-activation of rat cardiac myocytes. **78**, 411, 1993
Ion transport
Na^+–H^+ exchanger in isolated epithelial tracheal cells from sheep. Involvement in tracheal proton secretion. **78**, 383, 1993
Joint
Localized neural control of blood flow in the posterior region of the knee joint in anaesthetized rabbits. **78**, 105, 1993
Nitric oxide modulates sympathetic vasoconstriction and basal blood flow in normal and acutely inflamed rabbit knee joints. **78**, 615, 1993
Sympathetic innervation and β-adrenoceptor profile of blood vessels in the posterior region of the rabbit knee joint. **78**, 625, 1993
Kidney
Renal epithelial Cl^- secretion. **78**, 117, 1993
Effects of D-glucose, L-glucose and D-mannitol on renal calcium handling and general renal function in the rat. **78**, 165, 1993
Knee
Localized neural control of blood flow in the posterior region of the knee joint in anaesthetized rabbits. **78**, 105, 1993
Lactation
The short-term synthesis and infant-regulated removal of milk in lactating women. **78**, 209, 1993
Degree of breast emptying explains changes in the fat content, but not fatty acid composition, of human milk. **78**, 741, 1993
Larynx
Carbon dioxide-sensitive superior laryngeal nerve afferents in the anaesthetized cat. **78**, 787, 1993
Laser Doppler technique
Some aspects of the use of laser Doppler flow meters for recording tissue blood flow. **78**, 1, 1993
Leucocyte
Acute systemic hypoxia and the surface ultrastructure and morphological characteristics of rat leucocytes. **78**, 839, 1993
Lymph node
Neural modulation of bovine mesenteric lymph node contraction. **78**, 663, 1993
Lymphatic system
Neural modulation of bovine mesenteric lymph node contraction. **78**, 663, 1993
M_3 muscarinic receptor
Enterocytes on rat jejunal villi but not in the crypts possess m3 mRNA for the M_3 muscarinic receptor localized by *in situ* hybridization. **78**, 109, 1993
Magnesium
Calcium paradox in newborn and adult guinea-pig hearts: changes in intracellular taurine and the effects of extracellular magnesium. **78**, 503, 1993
Mammary gland
The short-term synthesis and infant-regulated removal of milk in lactating women. **78**, 209, 1993
Parathyroid hormone-related protein and mammary blood flow in the sheep. **78**, 499, 1993
Median eminence
Evidence for an age-dependent decrease in the immunoreactive prolactin-containing terminals of the median eminence of male rats. **78**, 851, 1993
Membrane potential
The effects of increasing cell length on auxotonic contractions; membrane potential and intracellular calcium transients in single guinea-pig ventricular myocytes. **78**, 65, 1993
Metabolism
Sound stimulation increases the cerebral glucose:oxygen quotient in the fetal sheep. **78**, 707, 1993
Microelectrode
The regulation of intracellular Mg^{2+} in guinea-pig heart, studied with Mg^{2+}-selective microelectrodes and fluorochromes. **78**, 221, 1993
Midbrain
The use of midbrain stimulation to identify the discharges of static and dynamic fusimotor neurones during reflex jaw movements in the anaesthetized cat. **78**, 15, 1993
Migrating myoelectric complex
Periodic fluctuations in pancreatic secretion and duodenal motility investigated in neonatal calves. **78**, 675, 1993
Milk
The short-term synthesis and infant-regulated removal of milk in lactating women. **78**, 209, 1993
Milk secretion
Degree of breast emptying explains changes in the fat content, but not fatty acid composition, of human milk. **78**, 741, 1993
Motor control
G.L. Brown Prize Lecture. Cortical control of the primate hand. **78**, 263, 1993
Motor cortex
G.L. Brown Prize Lecture. Cortical control of the primate hand. **78**, 263, 1993
Motor unit
Motor units within the normal rat medial gastrocnemius. **78**, 371, 1993
Motor unit discharge
Rhythmicity associated with a high degree of short-term synchrony of motor unit discharge in man. **78**, 649, 1993
Muscle
Neutral endopeptidase (EC 3.4.24.11) modulates the contractile effects of neuropeptides on muscle cells from the guinea-pig stomach. **78**, 35, 1993
Potassium loss from skeletal muscle during exercise in man: a radioisotope study. **78**, 639, 1993
Muscle ammonia
Heat stress increases ammonia accumulation during exercise in humans. **78**, 847, 1993
Muscle contraction
A comparison of the mechanogram of the ankle jerk in men and women: observations using an

adjustable dorsiflexing torque, high inertia mechanical filter and automatic readout system. **78**, 531, 1993

Muscle relaxation
A comparison of the mechanogram of the ankle jerk in men and women: observations using an adjustable dorsiflexing torque, high inertia mechanical filter and automatic readout system. **78**, 531, 1993

Muscle spindle
The use of midbrain stimulation to identify the discharges of static and dynamic fusimotor neurones during reflex jaw movements in the anaesthetized cat. **78**, 15, 1993

Nasal vasculature
The airway vasculature. **78**, 433, 1993

Na^+–Ca^{2+} exchange
Measurements of intracellular Ca^{2+} in cultured human myometrial smooth muscle cells bathed in low Na^+ solutions. **78**, 711, 1993

Neonate
Intestinal transport of sodium, glucose and immunoglobulin in neonatal pigs. Effect of glucocorticoids. **78**, 485, 1993

Neuropeptide
Neutral endopeptidase (EC 3.4.24.11) modulates the contractile effects of neuropeptides on muscle cells from the guinea-pig stomach. **78**, 35, 1993
The neuropeptide Phe-Met-Arg-Phe-NH_2 (FMRFamide) increases levels of inositol 1,4,5-trisphosphate in the tentacle retractor muscle of *Helix aspersa*. **78**, 757, 1993

Nickel
Functional consequences of the interaction of Ni^{2+} with the osteoclast Ca^{2+} 'receptor'. **78**, 517, 1993

Nitric oxide
Nitric oxide and cardiovascular control. **78**, 303, 1993
Nitric oxide modulates sympathetic vasoconstriction and basal blood flow in normal and acutely inflamed rabbit knee joints. **78**, 615, 1993

Non-adrenergic, non-cholinergic response
Neural modulation of bovine mesenteric lymph node contraction. **78**, 663, 1993

Nucleus ambiguus
Activity of inspiratory neurones of the ambiguus complex during cough in the spontaneously breathing decerebrate cat. **78**, 835, 1993

Nucleus tractus solitarius
Hypothalamic-evoked effects in cat nucleus tractus solitarius facilitating chemoreceptor reflexes. **78**, 425, 1993

Nutrition
Administration of 3,5,3′-triiodothyronine induces a rapid increase in enterocyte lactase–phlorizin hydrolase activity of young pigs on a low energy intake. **78**, 337, 1993

Osteoclast
Amylin inhibits bone resorption by a direct effect on the motility of rat osteoclasts. **78**, 18?, 1993
Functional consequences of the interaction of Ni^{2+} with the osteoclast Ca^{2+} 'receptor'. **78**, 517, 1993
Osteoclast function and its control. **78**, 721, 1993

Pancreatic β-cell
Properties of diazoxide and cromakalim-induced activation of potassium channels in cultured rat and RINm5F insulin-secreting cells; effects of GTP. **78**, 25, 1993

Pancreatic secretion
Periodic fluctuations in pancreatic secretion and duodenal motility investigated in neonatal calves. **78**, 675, 1993

Parathyroid hormone
Effects of acute acid loading on parathyroid hormone secretion and on urinary calcium and cAMP excretion in the growing lamb. **78**, 157, 1993

Parathyroid hormone-related protein
Parathyroid hormone-related protein and mammary blood flow in the sheep. **78**, 499, 1993

Patch clamp
Properties of diazoxide and cromakalim-induced activation of potassium channels in cultured rat and RINm5F insulin-secreting cells; effects of GTP. **78**, 25, 1993

Peptidase
Neutral endopeptidase (EC 3.4.24.11) modulates the contractile effects of neuropeptides on muscle cells from the guinea-pig stomach. **78**, 35, 1993

pH regulation
Na^+–H^+ exchanger in isolated epithelial tracheal cells from sheep. Involvement in tracheal proton secretion. **78**, 383, 1993

Phase analysis
Phase-dependent properties of the cardiac sarcoplasmic reticulum oscillator in cat right atrium: a mechanism contributing to dysrhythmias induced by Ca^{2+} overload. **78**, 79, 1993

Placenta
Stimulation of taurine efflux from human placental tissue by a hyposmotic challenge. **78**, 843, 1993

Potassium
Cardiac sympathetic nerve stimulation enhances cardiovascular performance during hyperkalaemia in the anaesthetized pig. **78**, 549, 1993
Potassium loss from skeletal muscle during exercise in man: a radioisotope study. **78**, 639, 1993

Potassium channel
Properties of diazoxide and cromakalim-induced activation of potassium channels in cultured rat and RINm5F insulin-secreting cells; effects of GTP. **78**, 25, 1993

Pregnancy
Mechanism of pregnancy-induced attenuation of contraction to phenylephrine in rat aorta. **78**, 403, 1993

Presynaptic inhibition
The effect of age and voluntary contraction on presynaptic inhibition of soleus muscle Ia afferent terminals in man. **78**, 235, 1993

Primary afferent depolarization
Spread of the dorsal root reflex in an isolated preparation of hamster spinal cord. **78**, 799, 1993
Correlation between spontaneous bursts of activity recorded from the dorsal roots in an isolated hamster spinal cord preparation. **78**, 811, 1993

Prize Lectures
G.L. Brown Prize Lecture. Cortical control of the primate hand. **78**, 263, 1993
The Wellcome Prize Lecture. A map of auditory space in the mammalian brain: neural computation and development. **78**, 559, 1993
Progastrin
Control of tissue progastrin concentrations in the rat. **78**, 327, 1993
Prolactin
Evidence for an age-dependent decrease in the immunoreactive prolactin-containing terminals of the median eminence of male rats. **78**, 851, 1993
Pulmonary circulation
The role of adenosine in hypoxic pulmonary vasoconstriction in the anaesthetized rat. **78**, 541, 1993
Receptor
Functional consequences of the interaction of Ni^{2+} with the osteoclast Ca^{2+} 'receptor'. **78**, 517, 1993
Recurrent inhibition
Rhythmicity associated with a high degree of short-term synchrony of motor unit discharge in man. **78**, 649, 1993
Red blood cell
Volume-sensitive KCl co-transport and taurine fluxes in horse red blood cells. **78**, 685, 1993
Reflex
A comparison of the mechanogram of the ankle jerk in men and women: observations using an adjustable dorsiflexing torque, high inertia mechanical filter and automatic readout system. **78**, 531, 1993
Renal function
Renal micropuncture study of the effects of D-glucose on tubular calcium handling in the anaesthetized rat. **78**, 175, 1993
Respiratory control
Activity of inspiratory neurones of the ambiguus complex during cough in the spontaneously breathing decerebrate cat. **78**, 835, 1993
Review Articles
Some aspects of the use of laser Doppler flow meters for recording tissue blood flow. **78**, 1, 1993
Renal epithelial Cl^- secretion. **78**, 117, 1993
Nitric oxide and cardiovascular control. **78**, 303, 1993
The airway vasculature. **78**, 433, 1993
The blood–brain barrier. **78**, 453, 1993
Neurotransmitter release mechanisms at the sympathetic neuroeffector junction. **78**, 591, 1993
Osteoclast function and its control. **78**, 721, 1993
Ryanodine
Phase-dependent properties of the cardiac sarcoplasmic reticulum oscillator in cat right atrium: a mechanism contributing to dysrhythmias induced by Ca^{2+} overload. **78**, 79, 1993
Salivary gland
Structural and functional characterization of striated ducts isolated from the rabbit mandibular salivary gland. **78**, 49, 1993
Secretion
Renal epithelial Cl^- secretion. **78**, 117, 1993
Skeletal muscle
Polyol pathway-related skeletal muscle contractile and morphological abnormalities in diabetic rats. **78**, 139, 1993
Smooth muscle
Evidence for decrease in myofilament responsiveness to Ca^{2+} during hypoxia in spontaneously active vascular smooth muscle in rats. **78**, 395, 1993
Snail
The neuropeptide Phe-Met-Arg-Phe-NH_2 (FMRFamide) increases levels of inositol 1,4,5-trisphosphate in the tentacle retractor muscle of *Helix aspersa*. **78**, 757, 1993
Sodium appetite
The effect of the putative AT_2 agonist, *p*-aminophenylalanine^6 angiotensin II, on thirst and sodium appetite in rats. **78**, 767, 1993
Sodium–calcium exchange
Phase-dependent properties of the cardiac sarcoplasmic reticulum oscillator in cat right atrium: a mechanism contributing to dysrhythmias induced by Ca^{2+} overload. **78**, 79, 1993
The role of the sodium pump and sodium–calcium exchange in recovery from calcium overload in guinea-pig ventricular myocytes. **78**, 545, 1993
Sodium pump
The role of the sodium pump and sodium–calcium exchange in recovery from calcium overload in guinea-pig ventricular myocytes. **78**, 545, 1993
Sound localization
The Wellcome Prize Lecture. A map of auditory space in the mammalian brain: neural computation and development. **78**, 559, 1993
Spinal cord
Spread of the dorsal root reflex in an isolated preparation of hamster spinal cord. **78**, 799, 1993
Correlation between spontaneous bursts of activity recorded from the dorsal roots in an isolated hamster spinal cord preparation. **78**, 811, 1993
Stretch-activated channel
Stretch-activation of rat cardiac myocytes. **78**, 411, 1993
Striated duct
Structural and functional characterization of striated ducts isolated from the rabbit mandibular salivary gland. **78**, 49, 1993
Sugar
Acute and chronic effects of pancreatic glucagon on sugar transport across the brush-border and basolateral membranes of rat jejunal enterocytes. **78**, 197, 1993
Superior colliculus
The Wellcome Prize Lecture. A map of auditory space in the mammalian brain: neural computation and development. **78**, 559, 1993
Sympathetic nervous system
Cardiac sympathetic nerve stimulation enhances cardiovascular performance during hyperkalaemia in the anaesthetized pig. **78**, 549, 1993
Neurotransmitter release mechanisms at the sympathetic neuroeffector junction. **78**, 591, 1993

Thermoregulatory responses to β-adrenergic agonists at low ambient temperatures in the rat. **78**, 775, 1993

Synaptic response
Hypothalamic-evoked effects in cat nucleus tractus solitarius facilitating chemoreceptor reflexes. **78**, 425, 1993

Synchronization
Rhythmicity associated with a high degree of short-term synchrony of motor unit discharge in man. **78**, 649, 1993

Taurine
Calcium paradox in newborn and adult guinea-pig hearts: changes in intracellular taurine and the effects of extracellular magnesium. **78**, 503, 1993

Stimulation of taurine efflux from human placental tissue by a hyposmotic challenge. **78**, 843, 1993

Thermogenesis
Thermoregulatory responses to β-adrenergic agonists at low ambient temperatures in the rat. **78**, 775, 1993

Thermoregulation
Thermoregulatory responses to β-adrenergic agonists at low ambient temperatures in the rat. **78**, 775, 1993

Thirst
The effect of the putative AT_2 agonist, *p*-amino-phenylalanine^6 angiotensin II, on thirst and sodium appetite in rats. **78**, 767, 1993

Thyroid hormone
Administration of 3,5,3′-triiodothyronine induces a rapid increase in enterocyte lactase–phlorizin hydrolase activity of young pigs on a low energy intake. **78**, 337, 1993

Transmitter release
Neurotransmitter release mechanisms at the sympathetic neuroeffector junction. **78**, 591, 1993

Transport
The blood–brain barrier. **78**, 453, 1993

Tricarballylate
Transport of tricarballylate by intestinal brush-border membrane vesicles from steers. **78**, 473, 1993

Vascular smooth muscle
The actions of caffeine and 2,3-butanedione monoxime on calcium transients in human vascular smooth muscle. **78**, 255, 1993

Ventricular cell
The regulation of intracellular Mg^{2+} in guinea-pig heart, studied with Mg^{2+}-selective microelectrodes and fluorochromes. **78**, 221, 1993

Vibration
The effect of age and voluntary contraction on presynaptic inhibition of soleus muscle Ia afferent terminals in man. **78**, 235, 1993

Villus secretion
Enterocytes on rat jejunal villi but not in the crypts possess m3 mRNA for the M_3 muscarinic receptor localized by *in situ* hybridization. **78**, 109, 1993
